

SH 75 at Esperanza-----0110-02-021

NEED AND PURPOSE

The current roadway is located in a rural area of Montgomery County. This route is used by many local residents, commuters en route to IH 45, and tanker trucks. The road currently has no shoulders which do not allow vehicles to move out of the travel lane when turning onto Esperanza. The installation of a left turn lane would allow traffic to move out of the travel lane while turning, thus reducing the need for thru traffic to slow.
