Appendix D – Projects Undergoing Environmental Assessment

The intent of this appendix is to identify projects that may undergo environmental analysis (EA) and feasibility project development during the 2023-2026 TIP time frame. The Federal Highway Administration requires these projects to be referenced in the TIP in order to facilitate the feasibility and environmental assessment phases.

This appendix contains projects that are shown in the fiscally constrained 2045 Regional Transportation Plan (RTP) for which the next logical phase of work is not programmed in the 2023-2026 TIP. This appendix in no way implies that these projects are programmed in the 2023-2026 TIP nor are the cost estimates necessarily fully finalized.

TOTAL PROJECT COST

The current estimate of total project cost is provided for each project and is provided to communicate the overall investment being made to the transportation system, This estimate may reflect work that has already occurred and reflects all facets of the project, including design and engineering costs, needed acquisition of rights-of-way or utility relocations, and construction contingencies.

YEAR-OF-EXPENDITURE (YOE)

Funding and costs for all projects is shown in YOE (nominal) dollars as opposed to current, real, or indexed dollars (such as “2022”).
